

# UFOs: What is the Truth?

A Presentation by Keith Rowell  
Assistant State Director  
Oregon MUFON

February 8, 2006

# Genuine UFO Photos

McMinnville, Oregon, 1950

Lubbock, Texas, 1951

Washington, D.C., 1952

Trindade Island, Brazil, 1958

Santa Ana, Calif., 1965

Belgium, 1990

Photographs from [ufoevidence.org](http://ufoevidence.org).

# Getting at the Truth

- Gather information and ask questions.
- Be a good scientist, scholar, or investigative reporter.
- Study the relevant literature.
- Find the experts.
- What are the important issues?
- Formulate questions.
- Ask questions of the literature and experts to go deeper and find out the truth.

# Some Things Are Controversial

- UFOs are controversial.
- Controversial things are difficult to study because of agendas.
- What is the source of your information?
- Who wants you to believe something about UFOs?
- Hint: Study the arts of persuasion.

# What Are the Right Questions?

- What are UFOs?
- Why doesn't everyone believe in them?
- Why are UFOs controversial?
- Who sees UFOs?
- How long have people reported UFOs?
- Are there really any crashed UFOs with little alien bodies in government vaults?

# Do You Want To Know the Truth About UFOs?

- Then ask the Right Question.
- What's the Right Question?
- HOW DO I KNOW WHAT I THINK I KNOW?
- Because UFO are controversial, the truth about UFOs is bound up with how information gets into our minds.

# Learn About How You Come to Believe Things

- Sources of Knowledge: Inside and Outside
  - From your own powers of sensing, thinking, imagining, and intuiting. (Inside)
  - From family, friends, and culture. (Outside)
  - From TV, radio, newspapers, Internet. (Outside)
  - From formal learning in school, college, etc. (Outside)

# What Are Good Sources of UFO Information?

- You are: Have you had a sighting?
- Friends, etc., are: Have they had a sighting?
- Books may be.
- TV, radio, newspapers, and Internet may be.
- Academics are NOT. Establishment connected people are NOT.

# The Two Keys to UFOs

- (1) UFOs are part of the paranormal world.
- (2) UFOs are part of the national security state.
- A proper study of both fields leads most directly to the truth about UFOs as it can be learned and understood by the ordinary citizen at this time.

# UFOs Part of Paranormal World

- Paranormal world is relatively easy to study.
- Best information is in books by maverick scientists and scholars in large public libraries.
- But field is controversial. Look out for agendas.
- Who is being a proper scholar or scientist?
- Hint: Transpersonal psychologists have best understanding at this time.

# UFOs Part of National Security State

- The world of intelligence establishment activities is secret and clandestine by design.
- The U.S. became a national security-driven nation in 1947 with the signing of the National Security Act by President Truman.
- UFOs first became a wide-spread public issue in 1947 with Ken Arnold and Roswell.

# UFOs a National Security Issue

- UFOs are known to World War II U.S. intelligence operations through “foo fighters” and 1946 Swedish “ghost rockets.”
- Roswell Incident involved crashed flying saucers and probably alien bodies.
- U.S. government knows that flying saucers are real and truly “out of this world” by 1947.
- The nitty gritty of UFO reality goes deep underground and stays there.

# What Intelligence Establishment Knows

- In 1947, the U.S. intelligence establishment probably did not know about alien abduction activity.
- In 1960s, they know but can't stop it.
- Know that paranormal world is real and source of UFO intelligence, but can't do anything about it.
- Haven't been able to "back engineer" UFOs or alien bodies.
- But can shoot down UFOs sometimes.

# UFO Knowledge Destabilizing

- Public knowledge about crashed flying saucers and alien bodies would have tremendous cultural impact.
- The public and the various American (and world) establishments (science, business community, religious institutions, etc.) would have serious questions.

# UFO Knowledge: No Upside

- So, UFOs known to be real by clandestined few in government. Can't stop phenomenon. Affects society at deepest level (alien abduction). Sixty years of secrecy.
- Upside: Telling truth is good.
- Downside: Could seriously disrupt normal function of society.
- Downside: Currently in power may lose power.
- Downside: Everyone mad at them.

# Effects of Long-term UFO Knowledge

- Society as whole knows paranormal world is real.
- Religious implications disruptive to belief?
- Scientists know non-human but human-like intelligence is real.
- Did (do) UFO intelligences affect human evolution?
- Did UFO intelligences create humankind?
- How do UFO and human intelligence relate?

# What's the Truth? I

- Are some UFOs flying saucers? Yes.
- Was the Roswell Incident really about crashed flying saucers and little alien bodies? Yes.
- Does our government tell us the truth about UFOs? No.
- Do alien abductions really occur? Yes.

# What's the Truth? II

- Are crop circles related to UFOs? Probably.
- Are cattle mutilations related to UFOs? Yes.
- Is bigfoot related to UFOs? Somewhat.
- How many UFO sightings are there every year? World-wide probably around 100,000.
- Does our government have an on-going program to monitor and study UFOs?  
Almost certainly.

# Should I Study UFOs?

- You will wrestle with ideas of what is real and what is not.
- You will gain no monetary reward.
- You will be denigrated and dismissed by ignorant establishment people.
- You may be targeted by the clandestine part of your government if you push too hard.
- You will be able to help new abductees and experiencers to adjust to their new understanding of themselves.

# How Do I Go Further?

- Visit [oregonmufon.com](http://oregonmufon.com), [mufon.com](http://mufon.com), [ufoevidence.org](http://ufoevidence.org), [nuforc.org](http://nuforc.org), and other good UFO sites on Internet. (Be careful! It's a jungle out there!)
- Read the 50 best of the 1500 or so books on UFOs in English.
- Join MUFON and become an investigator.
- Eventually, work for honesty and openness about UFOs in all societies worldwide.

# Some Important Books

- Richard Dolan. *UFOs and the National Security State*
- Terry Hansen. *The Missing Times.*
- Richard H. Hall. *The UFO Evidence, Volume II: A Thirty-Year Report*
- Stanislav Grof. *The Adventure of Self-Discovery.*
- Patrick Harpur. *Daemonic Reality.*
- George P. Hansen. *The Trickster and the Paranormal*

# It's Up to You

- UFOs are controversial.
- Some controversial things affect national security and consensus reality.
- Establishments don't like to be threatened and fight back.
- You are on your own when you look into things like UFOs.
- Good luck and Godspeed.
